ADJUSTABLE-HEIGHT STEEL AV CART WITH ACRYLIC SNEEZE GUARD

Mitigating the spread of germs has become paramount for educational institutions, businesses, and retail establishments. Because of this, our furnishings must evolve to provide safe barriers between people without sacrificing functionality.

Luxor's Adjustable-Height Steel AV Cart with Acrylic Sneeze Guard takes our popular metal utility cart and adds a 30" tall RECLAIM Counter Sneeze Guard to deliver 3-sided, wraparound protection. This rolling cart with an acrylic safety barrier is perfect for use as a teacher rolling cart, mobile cash wrap counter, mobile podium, plus a limitless array of warehouse and industrial uses.

Like all Luxor metal utility carts, the steel construction and robotically welded shelves ensure toughness and durability. Textured mats and retaining lips keep shelf contents securely in place. The adjustable top shelf can be set from 24" to 42" high and includes a three-outlet electrical assembly and integrated cable management for convenient power access. This mobile cart is easy to maneuver and can be quickly stabilized thanks to four 4" full-swivel casters, two with locking brakes.
