

CABINET

The heavy-duty frame and sturdy construction support the rigors of a physically active maker space. Everything from paints, tools, and manipulatives to robotic parts and supplies can be stored in MakerTron's flexible storage cabinet. MakerTron comes complete with peg walls to organize and display tools, two whiteboards for demos, and spacious, lockable cabinets and drawers for storage.

CASTERS

Heavy-duty casters.

LAMINATES/FINISHES

We encourage you to design your own finishes and colors from our large selection of laminates and butcherblock options.
