

Privacy Door Screens

ClassGuard™ Privacy Screen for Doors™

This is the First Cost-Effective, Professional Looking Privacy Screen on the Market

Protection for lockdown situations by blocking vision into the room

- Fits all manufacturer's vision lites up to 30" x 36"
- Pulls down for privacy and retracts with a push of a button
- Less expensive than vision kits with mini-blinds encased in glass
- Installation takes minutes
- Tested to 10,000 cycles
- UL-Listed for use on up to 90 minute fire rated doors

Security Laminates & Screens

- Laminates hold glass together, creating a barrier that will help slow any attempt to gain access. While not completely bullet proof, these high quality clear or tinted laminates will hold glass in place if shot.
- With an ultimate tensile strength of 144,000 psi, these custom built woven stainless steel mesh screens create a nearly impenetrable barrier.

Door Securing Devices

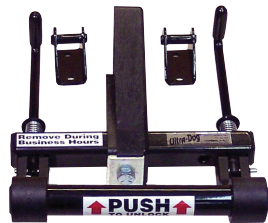

AD-100 Series Outswing

- Eliminates deadbolts, elephant chains, and padlocks
- Allows immediate egress with minimum effort
- Protects against hinge cuts and lock cutting charges
- Storage hanger included
- Multiple sizes available from 36" to 48" door widths

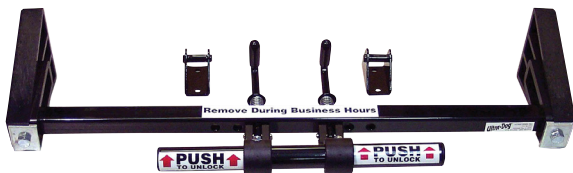

AD-500 Series Double Door with Mullion

- For glass or double doors with mullions
- Includes installation instructions, attachment blocks, hardware, storage hanger kit and door label

AD-400 Series Double Door without Mullion

When applying the AD-400 to glass doors with a metal frame, pay attention to the width of the stile or frame around the glass and the strength of the glass. The door should be equipped with an astragal.

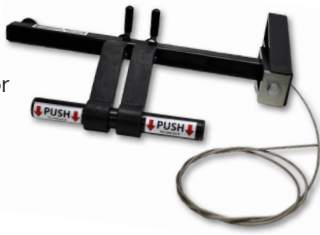

AD-600 Series Shiffler® Lockdown Door Security Device

Designed to Meet the Safety and Security Requirements for Lockdown Devices

- Installation Where Needed
- Minimal training Required
- No Tripping Hazard
- Compatible with Most Door Configurations
- Easy Emergency Exit
- Emergency Entry Enabled

Accessible, Safe, and Easy to Use!

Grab hold of the Lockdown Device.

Place hooks on quick release bracket. Allows responders to unlock with security key.
